Portable Oxygen Concentrator

SG02L

(Spring Gale™)

50%
more O₂

Safety, Durability, Reassurance

lovegopoc.com

● Live at Ease

Sufficient Oxygen

Compared to traditional POCs' 210ml per flow setting, SG supplies 333ml for each setting. Even at the same flow setting of 5, SG provides 50% more oxygen.

Full of Vitality

With sufficient oxygen supply, patients are capable of daily activities with less effort. Living a better life full of vitality.

50% More Oxygen Supply

SG is a new POC with a 50% larger oxygen supply. It solves the problem of insufficient oxygen which ranks at the top of complaints from previous POCs.

Handy Life

- Everyday

SG has a balance of built-in oximeter, a 4.3" large screen with a touch function, is lightweight, and has a longer battery time. It fully considers all aspects of the patient's life and redefines convenience.

4.3" Touch Screen

Lovego has a 4.3" screen with a wonderful touch design. It's two or three times bigger than other devices. A larger, clearly visible screen would be more friendly to the clients' daily lives.

Built-in oximeter

SG has integrated an oximeter into the machine. Clients can handily monitor SPO2 anytime and anywhere. When going out, there is no need to worry about forgetting the oximeter or not being able to find it anymore

Lovego App

– Manipulate Device on the Mobile Phone

SG has an App to connect your machine to your mobile phone by Bluetooth. You can control and manipulate the machine through the mobile phone directly.

It breaks the limitation of physical distance and brings people real freedom.

You just need to touch your phone to control your machine when on the go, sitting in wheelchairs, and lying in bed. You don't have to struggle to get the machine and then press the button.

Technical Specifications

SG device

SG02L

Weight:	5 lbs (2.28 kg)
